

Title II Report on Teacher Education

April 2007

Overview of the Institution

Elon University is a private, comprehensive, coeducational, residential university located in the heart of the Piedmont near Burlington, North Carolina. Founded in 1889, Elon is the third largest of North Carolina's 36 private colleges and universities. Elon offers its 5,230 students a dynamic academic program, featuring a solid liberal arts education as well as excellent professional programs in business, communications, education and law. Elon also is a national leader in experiential education. Students regularly connect knowledge with experience in programs such as study abroad, internships, research, service learning, and leadership. With 50 undergraduate majors, an average class size of 22, a 14–1 student-faculty ratio, and world-class facilities, Elon provides an ideal learning environment where students are encouraged to investigate for themselves and become independent learners. Elon faculty are devoted to teaching and are accessible to their students. Eighty-four percent of the full-time faculty hold the highest degrees in their fields. Elon's distinctive programs and learning styles have received national recognition. For the sixth year in a row, the National Survey of Student Engagement (NSSE) named Elon one of the top universities in the nation in engaging students in learning. In the survey, students gave Elon high marks in five (5) categories: level of academic challenge, active learning, interaction with faculty, enriching educational experiences, and supportive campus environment. In addition, Elon is now ranked 3rd (up from 9th in 2004) among 131 Southern regional colleges and universities in the 2005 edition of U.S. News & World Report's "America's Best Colleges." Additionally, the 2006 edition of the Newsweek Kaplan guide named Elon University as the hottest college in the nation for student engagement. The Education Trust recognizes Elon for excellence in freshman retention and outstanding graduation rates. Elon offers students exciting opportunities and academic challenge with six (6) selective, four-year Fellows programs. These include Honors Fellows, Science Fellows, Journalism and Communications Fellows, Isabella Cannon Leadership Fellows, Jefferson-Pilot Business Fellows, and the NC Teaching Fellows. Outside the classroom, Elon students have many opportunities to put their learning into practice and grow personally. The university competes in 16 intercollegiate men's and women's sports in NCAA Division I (I-AA in football), and is a member of the Southern Conference.

313

Special Characteristics

Elon's low student-faculty ratio of 14-1 gives teacher education students the advising, academic challenge and support services they need to become successful teachers. The program offers students the opportunity to begin field experiences as early as spring semester of the freshman year, enabling students to make an informed decision about entering teaching early in their college career. This early field experience is followed by more extensive field experiences as part of methods courses, which come after students

have been formally admitted to the program. Thus, the Elon teacher education student enters the student teaching semester with two or three semesters of school experience.

Elon University is one of the fourteen campuses participating in the prestigious North Carolina Teaching Fellows Program.

Supplemental Descriptive Information to Provide a Richer Picture of the Efforts to Provide High Quality Teacher Education

Elon University works closely with public schools through a variety of activities, including program development, grant writing, team teaching and service on committees. The Office of School Outreach Programs provides ongoing support efforts to provide assistance to teachers, students, parents and administrators in the local schools. Current projects in which this office is involved include assisting “at-risk” public schools and creating a Professional Development Academy which is offering professional development seminars, workshops and courses to beginning, lateral entry and career teachers. The School Outreach office has created a support system for National Board Certification process for local teachers; provided instructors for AIG licensure coursework for selected local teachers; and sought grants and business/industry sponsorships for collaborative projects with local public schools.

Public school teachers teach classes at Elon; and teachers and administrators serve as guest lecturers in classes and the student teaching seminar. Representatives from the Alamance-Burlington Schools serve as voting members on the Teacher Education Committee and the M.Ed. Advisory Committee assisting with program design and revision. Elon has made college facilities available rent-free for the Alamance-Burlington Schools for staff development programs.

INSTITUTIONAL REPORT CARD

Pass-Rate Data: Regular Teacher Preparation Program

Academic Year: 2005-2006

Testing Period:10/05-9/06

Number of Program Completers: 112

Specialty Area/	Number of Students		Percent of Students
	Taking Test	Passing Test	
Professional Knowledge			
Elementary Education (K-6)	53		100%
Teaching Learning Disabled (K-12)	10		100%
TOTAL	63		100%

**Individual test scores not reported if fewer than 10; TOTAL includes all test takers.*

Section II. Program Information

Number of student in the regular teacher education preparation program

Total number of students admitted into teacher preparation, all specializations, in academic year 2005-2006 368

Information about supervised student teaching

Number of students in supervised student teaching in academic year 2004-2005 93

Number of faculty members who supervised student teachers:

(1) Full-time faculty in professional education 5

(2) Part-time faculty in professional education, but full-time in the institution 9

(3) Part-time faculty in professional education, not otherwise employed by the institution 9

Total faculty student teaching supervisors 23

Student teacher/ faculty ratio 4.04/1

The average number of student teaching hours per week required 40

The total number of weeks of supervised student teaching required 14

Average total number of student teaching hours required 560

315

Information about state approval or accreditation of teacher preparation programs

Is your teacher education program currently approved or accredited by the state? Yes

Is your teacher preparation program currently under a designation as low-performing by the state (as per Section 208(a) of the HEA of 1998)? No
