2012-13 ASTRONOMY MINOR

ASTRONOMY
Requires the following:

PHY 102  Introduction to Astronomy and lab  4 sh
PHY 205  Galactic Astronomy  4 sh

Select one course from the following:  4 sh

   PHY 201  General Physics I
   OR
   PHY 221  University Physics I

Select one course from the following:  4 sh

   PHY 202  General Physics II
   OR
   PHY 222  University Physics II

PHY 313  Modern Astrophysics  4 sh

Four hours of related material as selected in advance in consultation with astronomy advisor and approved in advance by physics department chair. Appropriate courses should support the specific direction of the student’s minor and may include advanced physics, interdisciplinary or related scientific studies, e.g.  4 sh

TOTAL  20 sh
