In Their Own Words

“The Student Professional Development Center helped me prepare a compelling resume, write personalized cover letters, and create an effective LinkedIn profile – all of which assisted in getting me noticed by recruiters. These services, along with attending the Career Services Job & Internship Expo, helped me land my first job. The SPDC will prepare you for every step of the job search process and will put whoever utilizes it a step ahead of their peers.”

Emma Kwiatkowski
Class of 2015
