Living and Learning at Elon: Integration Grants
2016-2017 Application Instructions

A limited amount of funding is available to support new ways to enhance student learning and engagement through the integration of students’ academic and residential experiences. Although there isn’t a strict limit on the amount of each award, we anticipate they will generally fall in the range of $200 - $1,000 and will be combined with existing departmental funds. The intent is to support new connections that advance the goals and mission of the residential campus initiative, as described on the lower half of this page.

To apply, please submit the following information (limit the application to no more than two pages):

- Name, department, and contact information of the lead individual for the project
- Name(s) and department(s) of any collaborators
- Amount requested
- Overall project/program budget, including identification of other funding sources and all project/program expenses.
- Responses to the following prompts:
  1. Briefly describe the proposed project/program, including dates for implementation.
  2. How is the proposed project/program connected with residential neighborhoods and/or how does it meet the goals of the Residential Campus Initiative?
  3. How will you measure the effectiveness of the proposed project/program?

Application materials should be submitted to Jackie Allred, Administrative Assistant to the Assistant Vice President for Student Life and Dean of Campus Life, via email jallred@elon.edu. Applications are due by September 30 for best consideration, but any remaining funds will be allocated on a rolling basis after the initial review. Notification will occur by mid-October or within 7 days of the receipt of the application. Proposals will be reviewed and selected by members of the Residential Campus Advisory Committee.

Residential Campus Initiative Mission
To integrate academic and residential experiences in order to further students’ intellectual, personal, and community development as lifelong learners and responsible global citizens

Vision and Goals
The residential campus initiative embodies the university mission by creating communities that enhance learning and engagement.

Students interact with faculty, staff, and fellow students in residential communities designed to extend learning beyond the walls of the classroom.

Through planned and informal interactions, students:
- encounter new ideas and perspectives
- debate the larger questions of life
- practice active citizenship in a shared community
