Submission Guidelines for Creative Writing

These types of submissions may be creative in style; however, poems and fiction pieces should reflect a clear environmental perspective. Although authors are not expected to be natural scientists, it is important that submissions be accurate, comprehensive, and well researched.

Poetry: We will accept all forms of poetry.

Prose: We will accept fiction and creative nonfiction pieces. All prose should be under 6,000 words.

Please send inquiries and interest notification to visionsmagazine@elon.edu and include the type of submission in the subject box. All submissions are due before the February deadline.
