- Working electronics can be donated at any of the Donation Stations
- Broken electronics can be put in the following locations

  - Residential neighborhood trash rooms, on the floor, not in the trash bin. Environmental services will take electronics to the proper location if they are NOT in the same bin as trash.
Does it matter which pile or truck I put items in?
- Yes. Items are distributed to four community partners. Having items sorted makes distribution much easier for the 3 staff members collecting thousands of pounds of donations.

Should I bag my items?
- No

Can I take items from the trucks?
- No. That is stealing.

What if it is after hours and I don’t have access to my Donation Station because I live in another building or the truck is locked?
- Wait until the building or truck opens in the morning, then drop items off.
- Do not leave items outside trucks.
