What is the **Elon Experiences Transcript**?

The Elon Experiences Transcript allows students to present a record of their participation in the five Elon Experiences. The university validates a student's participation in these experiences. The transcript is available to students through OnTrack and serves as a catalyst for incorporating out-of-class experiences with academic, career and personal development goals.

How can the transcript be used?

Faculty and staff can use the transcript to help students map their Elon Experiences throughout their college career.

- ▶ **First-year students:** Describe the Elon Experiences and how the transcript will serve as a record of students' activities during their four years at Elon. Help identify ways students can be meaningfully engaged outside of the classroom.
- ▶ **Sophomores and juniors:** Review what students have done so far during their time at Elon. Look for patterns that can lead to majors, internships and career paths, and encourage students to find ways to take part in any of the five experiences they haven't done yet.
- ▶ **Seniors:** Help students articulate the value of their experiences as they prepare for job and graduate school interviews. Students can also request official copies of their Elon Experiences Transcript to include with applications for jobs and graduate schools.
