

New Student Orientation 2009

Move-In Day Directions, Unloading, and Parking

Your cooperation in using the following directions and using designated parking areas will help Move-In Day run smoothly. Regardless of these attempts, traffic congestion may become an issue with over 1,300 new families entering the campus at once. Please note that driving directions are different for Move-In Day to help us alleviate traffic on this busy day. Orientation Leaders will be available to assist you with parking & unloading.

If you live less than four hours away, please arrive to campus no earlier than 10:00am to avoid traffic and long lines. Please refrain from parking on the grass or in fire lanes! Do not leave personal items unattended!
