

My name is Tiffany Francis. I am 20 years old and attend Wake Technical Community College. I am studying for my dream to become a cultural anthropologist. The ADVANCE program has given me the rewarding experience of

helping children and teens. I've been in similar situations these children have been in, so I enjoy being a big sister to the kids, and giving them advice if they ask for it. I hope experience will allow the kids to have a more positive outlook on life, and set accomplishments that they will achieve.
