

VOICES *of* Welfare

A teal-colored wavy line graphic that starts on the left, dips down, and then rises back up to the right, framing the bottom of the main text.

Get the facts about public assistance.

Welfare is a hot button issue for many in the U.S. But untangling fiction from truth and perception from reality can be difficult. To help create a more accurate picture of welfare today, our project:

- relies on data and statistics to explore the complex truths about welfare.
- shares the stories of welfare recipients to hear firsthand the challenges of living close to the poverty line.

Get the facts about public assistance nationally, in North Carolina, and right here in Alamance County.
