The Human Services major prepares students to work as practitioners in a variety of professional service settings such as social services, mental health, family services, corrections, gerontology, child care, youth programs, group homes and many others. The Human Services curriculum guides the student through gaining the knowledge, skills and experience necessary to work effectively with a variety of populations.

Students engage in extensive fieldwork in Human Service agencies as part of their studies. Through the classroom and field components of the major, students examine critically a range of human and societal problems and the programs and services designed to address them, acquiring an understanding of the societal, cultural and personal variables which contribute to the development of human problems and to their solution.

The Human Services major draws upon knowledge in the social sciences, especially psychology and sociology, and emphasizes the application of this knowledge to the improvement of human life and society. In order to apply this knowledge effectively, students develop a variety of skills including those involved in oral and written communication, problem solving, developing professional helping relationships, organization and administration.

Independent Major

Coordinator: Associate Professor Braye, Director of General Studies

Students with intellectual and professional interests which cannot be met by other major and minor programs may create an independent major. Independent majors are interdisciplinary in nature and are suitable for highly motivated students willing to assume exceptional responsibility for their own education. Students must have a GPA of at least 3.0 and no more than 66 completed semester hours when applying. Advice from the Director of General Studies may be helpful in designing an independent major. Details concerning final approval for an independent major may be obtained in the office of the Director of General Studies.

An Independent Major requires the following:

1. An Application for Independent Major, available from the Director of General Studies, must be completed before the student has earned 66 semester hours. This application also outlines the procedure to be followed for designing and declaring the Independent Major.
2. An interdisciplinary committee of three professors, including one designated as the principal advisor, must be assembled.

3. A curriculum must be designed with help from the committee. That curriculum must include the:

   - Completion of the General Studies Requirements

   - **An Independent Major includes:**
     - a minimum of 48 semester hours
     - a minimum of 28 semester hours at the 300-400 level
     - a capstone seminar
     - a capstone interdisciplinary project
     - a plan for assessing the completed major

   The independent major courses must come from at least three departments, and no more than half may be from any one department. Upper-level courses taken to satisfy the requirements of an independent major will also satisfy the eight-hour advanced studies requirement when the independent major includes at least 12 hours of upper-level courses in three departments and at least two of the four areas listed under Liberal Studies. Students completing an independent major which designates an advanced GST Seminar as the capstone seminar must take another GST Seminar to fulfill the General Studies requirements.

   No more than four semester hours of independent study may be included. This will usually be used for completion of the capstone interdisciplinary project.

**International Studies**

Coordinator: Professor Digre  
Program Faculty: Professors: C. Brumbaugh, W. Rich  
   Associate Professors: Chakrabarti, Romer, Roselle  
   Assistant Professors: J. Das, Smith-Nonini

The International Studies major provides students with an interdisciplinary program through which they can gain a broad knowledge of international affairs as well as expertise on one of the world’s regions. Study abroad experiences and foreign language study form integral parts of the program. Students, with the support of their advisers, have considerable freedom in designing their own program of study.

The major may form an attractive double major for students from a variety of disciplines, such as political science, history and foreign languages. It also might be profitably combined with a business minor. It should provide an educational background for those seeking international affairs careers in government, nongovernmental organizations (development/humanitarian), travel and business.

Students are required to include a study abroad experience in their programs. Students should choose an area relevant to their regional concentrations (see below). International (foreign) students at Elon satisfy this requirement due to the inherent cross-cultural character of their college education. Under specified provisions of the program, up to 16 credit hours of foreign study can be counted toward the major.

**A major in International Studies** requires 44 semester hours. These requirements are specified as follows:

Journalism and Communications

Dean, School of Communications: Professor Parsons
Associate Dean, School of Communications: Associate Professor Hamm
Associate Professors: Copeland, Costello, Grady, Guiniven, Hatcher, B. Lee, Padgett
Assistant Professors: J. Anderson, Barnett, Book, Burns, Duvall, Eke, Frontani, Fulkerson, Gibson, Gisclair, W. Johnson, Makemson, Min, T. Nelson, Skube
Instructors: Lashley, Loomis, Saltz, Sen
Adjuncts: Childers, Fox, Hatch

The words communications and community come from the same linguistic root. A democratic community is built through freely and accurately telling citizens about the world they live in. As a result, communications is essential for people to stay in touch with each other and with government, business and other institutions in society.

The School of Communications prepares students for careers in print and web media, broadcasting and new media, public relations and corporate communications, and cinema.

The School offers two majors: Journalism and Communications (the latter with three emphases: Broadcast and New Media, Corporate Communications, and Cinema).

The curriculum has several important themes: We live in a global world, we live in a digital world, and students should reflect the highest ideals of their disciplines, such as serving the public good and promoting citizenship in a democracy. These themes are integrated into a curriculum that emphasizes writing, research and analytical thinking. While technology is important, the School’s overarching emphasis is on the content of ideas and information.

Students complement in-class work with involvement in campus media including the campus newspaper The Pendulum and Pendulum Online, WSOE-FM and Elon Student Television (ESTV).
