

Dr. Kelsey Bitting

Department: Center for the Advancement of Teaching & Learning and Environmental Studies Email: kbitting@elon.edu

Office: Belk Pavilion 105

Description of faculty member's current research/creative interests:

My current research investigates the impact of different types of introductory science lab activities on student learning and interest for different populations, as well as their impact on teaching assistants' beliefs about teaching.

Description of faculty member's current research/creative needs:

My current needs center on organizing and analyzing data to determine the impact of online lab formats during the pandemic have impacted historically-marginalized populations of students compared to the broader student population.

Currently looking for a student to apply and work in these programs:

- Any program/opportunity
- Summer Undergraduate Research Experience (SURE)
- Spring Undergraduate Research Forum (SURF)
- Lumen Prize

I can mentor a student enrolled in 498/499 hours during these sem

- Spring 2021
- Sum I 2021
- Sum II 2021
- Fall 2021
- Spring 2022

The ideal student would have the following qualifications:

This would be a great project for science or psychology majors interested in education/teaching or education majors interested in science. Some experience using spreadsheets (e.g. Excel, Google Sheets) would be helpful.

Students interested in working with me should...
